HONGKONG, MARCH 13TH, 1897.

The colony is indebted to Dr. WILM, of the German Navy, for his interesting and valuable report on the plague in Hongkong, portions of which will be reproduced in another column. The report is a long one, occupying over twenty-five pages of closely printed foolscap, and is for the most part highly technical. We cannot, of course, discuss it in its medical aspects, but the portions referring to public and private hygiene we would cordially recommend to the attention of our readers. Dr. WILM is of opinion that the contagion is introduced into the body chiefly through the alimentary canal; and as a coincidence it may be mentioned that Dr. CLARK, the Medical Officer of Health, reported to the Sanitary Board that several of the cases of enteric fever at present existing in the colony were probably caused by eating salads. If the poison of enteric fever has really in these cases been conveyed in the way mentioned the fact is suggestive of the extreme danger incurred by persons who consume Chinese grown vegetables uncooked at times when the plague is about. Great advances have of late years been made by Chinese market gardeners in the growing of vegetables, there being many men now engaged in the industry who have been trained as gardeners in European employ and who manage their gardens on European lines, discarding the disgusting and dangerous native method of manuring. The improvement, however, is far from universal, and market vegetables must therefore always be regarded with suspicion and as unfit for consumption in an uncooked state. As to the necessity of carelessness in matters of diet Dr. WILM's report will no doubt be accepted without controversy. There are other points, however, raising questions, in which we should like to see the annotations of the Director of Public Works and the Medical Officer of Health. Will Mr. COOPER, for instance, accept as correct Dr. WILM's description of our drainage system and the statement that the pipes are frequently stopped up? Of the general sanitary condition of the colony we should have hoped that rather a more favourable account might have been given in 1896 than that given by Dr. WILM, but while a local officer might perhaps have had his attention chiefly attracted by the improvements that have been effected in the conditions formerly prevailing Dr. WILM, as we consider, would naturally approach the subject with an impartial mind, and this lends special value to his report. The incident of the well at Yau-tai, from which the inhabitants of that village were drawing for domestic consumption water contaminated by surface drainage and in which the plague bacillus was flourishing, appears specially humiliating to our sanitary administration. It must be remembered that Dr. WILM's report refers to the year 1896, after the colony had had the painful experience of 1894. The lesson of that experience seems to have been only imperfectly learned after all.

The P. & O. steamer *Borneo*, from China, arrived at London on the afternoon of the 11th inst.

The D.I.C. steamer *Bretta*, from Hamburg, left Singapore yesterday and may be expected here on or about the 13th inst.

There is a general feeling abroad that matters are progressing in Sandakan. The Chinese are showing more interest in land and planting matters, and trade is pretty brisk.—*Borneo Herald*.

This afternoon on the Happy Valley in the grounds for the Hongkong Football Club, while the Royal Engineers' Recreation Club will play H.M.S. *Centurion*. Kick-off at 4 p.m. Referee, Mr. F. G. Davies, R.A.

The telegraph cable between Hongkong and Macao has been interrupted for the last six weeks. Messrs. Edward and Evelyn have been out in the Macao market buying laundry to find where the cable is broken, but the sooner it is re-laid by a new one the better.

Among the passengers who arrived by the *Ariane* Apear yesterday from Calcutta were Sir A. S. Lethbridge, K.C.S.I., and Sir Alfred Croft, K.C.I.E. The former, a Brig.-Gen. Lieut.-Col., and a member of the Council of India, has been for the last thirty years in various offices in India. The latter has also been in the Legislative Council of Bengal.

Lt.-Col. Coker, B.A., who was appointed to command the Royal Artillery Straits Settlements, has decided not to accept the post. We understand that another Lt.-Colonel R.A., to whom the appointment was subsequently offered, has also declined to accept it, probably preferring to retire. It is now most likely that one of the Major Officers, whose journeys is due, will get the billet.—*Singapore Free Press*.

The Band of the West Yorkshire Regiment will play the following programme in the Officers' Garden at half-past twelve to-morrow:

Overture, "Titus" Moers.
Spring Song Mendelssohn.
Song, "The Voice of the Father" Corelli.
The Unfinished Symphony Schubert.
(a) Allegro Molto—(b) Andante con moto.
(c) Adagio—G. Moore can write.

Yesterday Commander Hastings commanded Iking No. 343 for smart conduct. The ensign was on duty on Thursday night when he saw a man strutting about the room of a house at 2, Sui Ping Street, Wanchai. A boy who was in the kitchen, expecting some thing wrong, accosted the man and found that the box and its contents, which consisted mainly of clothing, had been burglariously stolen from the house. The prisoner was yesterday sent to gaol for six months with hard labour.

A cricket match will be played to-day, commencing at eleven o'clock. Over 23 v. Under 23. The following are the sides:

We hear that the recorded rainfall at one station in Pahang, during December, reached the enormous figure of 82 inches, of which 22 inches fell in one day; that is over five times the rainfall that fell in Singapore on the wettest day of the recent wet weather. No wonder that the river rose 40 feet and that the low country was flooded for miles inland, no wonder that people ran to trees and in houses, and perhaps twenty feet of water. The destruction of the crops must mean hard times for the country people, we fear, and presently for the city people also, in every prospect of considerable amount of local distress in Pahang.—*Singapore Free Press*.

We have received from the *Koko Chronicle* of the "Chronicle Almanac, Encyclopedia and Dictionary, 1897," which is described on the title page as a compendium of facts and figures, a storehouse of varied and up-to-date information historic, scientific, and political, forming a valuable medium for readers of all classes. The first four pages are devoted to the *Far East*, following which we have Japanese holidays and Bank holidays, Japanese weights and measures, and Japanese coins and telegraphs. There is a sum of local information and blank paper left for memoranda, to date and record after a few months' use.

Three days ago, Dr. Ho, Kai, and similar attainments were paid to the European gentlemen present. The proceedings then terminated.

The following are the entries and drawings for the first heats of the Championship and Double Handicap:

THE CHAMPIONSHIP.
C. N. Rizard, R.A., plays a b.

F. G. Anderson, R.H.A., and E. O. Creagh, R.H.A., receive 3 points, a b.

The result of the double heat will be played off on the 17th instant, that of the Championship by the 29th instant.

REUTER'S TELEGRAMS.

[SUPPLIED BY THE "DAILY PRESS."] LONDON, 10th March.

GREAT BRITAIN, GREECE AND THE CRETAN QUESTION.

Great Britain is not satisfied with the Greek reply to the Concord Note and considers it necessary that the Greek troops should quit Crete.

Mr. Balfour has declined to pledge the Government to take no steps on the Cretan question without first consulting Parliament.

FROM TONKIN PAPERS.

MUTINY OF TURKISH GENDARMES AT CANEA.

Pairs, 3rd March.

The Turkish gendarmes at Canea, not having received their pay, mutinied and fired their rifles, killing the Colonel. The Italian and German detachments intervened and fired a volley, which killed five of the mutineers.

THE MEINGOON PRINCE.

The *Levain du Tonkin* states that the Meingoon Prince, who recently escaped from Meingoon with the object of reaching Burma and raising a rebellion against the English, has been captured and brought to Hanoi, where he arrived on the 2d March. He is accompanied by two of his family and a suite of a dozen attendants.

There has been a growing tendency to regard animal life as impossible in the absence of diet. Dr. WILM's report will no doubt be accepted without controversy. There are other points, however, raising questions, in which we should like to see the annotations of the Director of Public Works and the Medical Officer of Health. Will Mr. COOPER, for instance, accept as correct Dr. WILM's description of our drainage system and the statement that the pipes are frequently stopped up? MACAO.

FROM OUR CORRESPONDENT.

Macao, 12th March.

Last Friday, about 2 p.m., H.M. despatch vessel *Alacrity* arrived here, having on board Vice-Admiral and Lady Butler, and the usual salutes were fired. The *Alacrity* anchored outside the harbour and the Chinese, and in the performances of your official duties you have displayed a combination of firmness and leniency which has been much appreciated, not only by ourselves, but also by the residents generally in this colony.

For the past 15 years you have laboured

continuously for the good of the colony,

and as a result of your efforts the

colonial government

and the Chinese

have been greatly improved.

On Saturday night a young man who had been over from Hongkong for the feast was found in the street by some unknown, a knife or some similar weapon being used. The ent. would probably be recognised, as the present everything connected with the affair is in obscurity. The occurrence shows how unsafe we are in Macao, and that only the population here have ever been so safe. The police are out for policy, but the Government is not.
